the company.

The trading was professional and local, but for fear that this expression may be misunderstood it may be added that the market is subject to manipulation which cannot be excelled in skill and power. The entire course of prices merely added to the previous uncertainty, and if the stocks that have an international market were lower, those under Gould control were generally higher. There can be no better indication of the real movement of the market. Duiness follows declines and rallies encourage new buying which is constantly checked by free selling of stocks. THE DAY IN THE BOND MARKET.

A smart advance in the 4 per cents was not productive of business in any classes of Government bonds. Bids for the currency 6s of 1897 were raised 1-2 per cent. The last quotations were as follows:

U.S. 45s, 1891, reg. 100 U.S. cur. 6s, 1896, 111 U.S. cur. 6s, 1896, 111 U.S. cur. 6s, 1896, 111 U.S. cur. 6s, 1897, 114 U.S. 4s, 1907, reg. 1178, 1184, U.S. cur. 6s, 1898, 119 U.S. cur. 6s, 1898, 119 U.S. cur. 6s, 1898, 119 U.S. cur. 6s, 1895, 1

The State issues were more active, but only at easier prices. The business included South Carollina non-fundable 6s at 21.2. Tennessee settlement 3s at 70 and 69.7-8, and Virginia deferred 6s, receipts, at 7.3-4. The only sale of city bank stocks was ten shares of Western National at 100. The general bond market relapsed into a state of extreme dulness. The principal changes were advances, but they were generally in issues which are not usually active. An advance of 2 per cent in Laclede Gas firsts was not, therefore, a feature of the market. Other prominent advances were made in Canada Southern firsts, Toledo, St. Louis and Kansas City firsts, and Wabash seconds. Reference is niade to our full report of bond sales.

Money on call was again extremely easy at 21-2 per cent. A few loans were made at 3, but the supply of funds was so plentiful that throughout the last hour offerings exceeded the demand at even 2 per cent. Rates for time loans were softer and a little business was done at 4 per cent for four months and 5 per cent for six months.

The Clearing House statement was as follows: Exchanges, \$132,522,068; balances, \$4,432,411. The Sub-Treasury was debtor at the Clearing House \$2,005,738. Its net loss on balance was \$1,507,230, made up by losses of \$157,543 currency and \$1,349,375 coin. The day's operations included: Receipts, \$3,352,969; paymeats, \$4,860,199; resulting in a general balance of \$139,238,201, consisting of \$121,951,602 coin and \$17,286,539 currency.

The Unfted States Treasury at Washington received to-day \$223,450 National bank notes for

ceived to-day \$223,450 National bank notes for redemption.

The customs receipts were \$306,766, the internal revenue receipts \$117,509, and the miscellaneous receipts \$52,343.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

The foreign exchange markets were dull, but firm. The higher rates for long bills were explained easily by lower rates for money in London, but the firmness of demand was not excused. There were no slipments of gold. Following are the revised figures for netual business: Hankers' bills, \$4.85.1-28\$4.85.3-4 and \$4.888\$4.88.1-4 for long and short sterling respectively; French francs, 5.20.5-8 and 5.18.1-8; reichmarks, 95 and 95.5-8.

In London British consols were a trifle lower at 95.1-16 for money, but unchanged at 95.3-16 for the account. The Bank of Engiand gained 2447, 000 bullion on balance, although shipments to Russia amounted to £1,500,000. In the open market discounts fell to 21-4321-8 per cent. There was no change in the price of bar-silver, which was quoted steady at 44.9-16d. an ounce. American railway shares declined from the opening and after feet-le rallies closed dull and heavy. At Paris French 4 per cents sold at 95.121-2294.95, ex interest, for the account. Sight exchange on London advanced to 25.30 francs to the £ sterling. RAILROAD EARNINGS. RAILROAD EARNINGS.
